All alone in the cold-hearted night I was fading fast
You came to me in a whole new way
And it came to pass

I can't believe You opened up the way With tears now I ask

Don't let go of my heart Don't ever leave me here too long in isolation Don't let go of my heart I do believe You're here to offer consolation

There were signs all along the road And throughout my life Gentle reminders of the way I should go And You were by my side

Oh, let me see what I long to behold Open my eyes

Don't let go of my heart
Don't ever leave me here too long in isolation
Don't let go of my heart
I do believe You're here securing my salvation

The dawn of light is nearing
The night is disappearing
I'm looking through the clearing
Waiting to embrace You

Don't let go of my heart
For You are with me here, I know You'll leave me never
Don't let go of my heart
You are my guiding light forever and forever

Don't let go of my heart For You are with me here, I know You'll leave me never Don't let go of my heart You are my guiding light forever and forever

Don't let go of my heart Don't ever leave me here too long in isolation Don't let go of my heart I do believe You're here securing my salvation
