

Get Over It

Phil Keaggy

A sure thing matters don't you leave it behind,
But you've been working on the white line.
Get over it, get over it.
Too many people got you climbing the wall,
Watch where you land cause you're gonna fall
Or get over it, get over it.

Lifeless colors, wilted flowers,
You've been sitting there for hours,
Go, get up and go.

Greener is the grass on the other side,
Straddling the fence, can't make up your mind.
Get over it, get over it.
Fading colors, plastic flowers

You've been dreaming there for hours
Go, go, go.....

Brilliant colors, endless flowers
You can see the place where others go, go, go.....
