

I Know Someone

Phil Keaggy

When the going gets too rough
And you feel you've had enough,
I know someone you can look up to,
And by the way, He's been expecting you.

And when those clouds won't go away,
And you've no more tunes to play,
I know someone you can look up to,
And by the way He's been protecting you

All your life it seemed
That you were living a dream,
But did you live?

Now you're waking from your slumber,
Do you know who put you under?
I know someone you can look up to,
And by the way He's here to rescue you.

All your life it seemed
That you were living a dream,
But did you live?

He's been preparing you all your life
You see that you were living a dream
But now you live.
