

Revive Me

Phil Keaggy

God, I need your help now.
Feels like I've forgotten how to pen
These heartfelt feelings of love for You
The songs, they don't come as easy now
The words don't flow now the way they did
When I was just twenty-two

But You, still got a hold on me
Lord, You've given me sight
To see what's true
I only wanna do what's right for You

God, I need the wind to blow now
Through this flesh I need to know now
Your rest, I need to show You I believe in You

These days, as I'm getting on in years now
Have their challenges and fears now
Though I doubt myself, I still believe in You

Cause You, still got a hold on me
Lord, You've given me sight
To see what's true
I only wanna do what's right for You.

You, still got a hold on me
Lord, You've given me sight to see what's true
I only wanna do what's right for you.
My light and my salvation

Revive me. It's my soul a cryin'
Revive me, when I feel like I'm dyin'
Restore me to that place I long to be

Oh, first love, Lord above the earth
First love, spirit of new birth
Come quickly, come and hasten unto me

You, still got a hold on me
Lord, You've given me sight to see what's true
I only wanna do what's right for you.
My light and my salvation

Revive me. It's my soul a cryin'
Revive me, when I feel like I'm dyin'
Restore me to that place I long to be
Oh, first love, Lord above the earth
First love, spirit of new birth
Come quickly, come and hasten unto me
