

# Tender Love

Phil Keaggy

La la la la ...

It's a tender love that's gonna see you through  
Whispering to your heart so that you'll know what to do  
It's a tender love not about to let you go  
It's a tender love and there's so much more to know

La la la la ...

Love that's holding me, tender and true  
Love that's molding me, seeing me through  
I've stood in true amazement of all you've done for me  
My faith so small, you do it all, you give it all for free

It's a tender love that's gonna see you through  
Whispering to your heart so that you'll know what to do  
It's a tender love not about to let you go  
It's a tender love and there's so much more to know

Let go of the past, get up off the ground  
This love will last, this love I've found  
I stand in true amazement of all you done in me  
I'm in a daze, yes, I'm amazed, embracing the change, I'm free,  
yeah  
It's a tender love that's gonna see you through  
Ah, whispering to your heart so that you'll know what to do  
It's a tender love not about to let you go  
Oh, it's a tender love and there's so much more to know

It's a tender love that's gonna see you through  
Whispering to your heart so that you'll know what to do  
It's a tender love not about to let you go  
Oh, it's a tender love and there's so much more to know
