

Watch My Back

Phil Keaggy

Ah ah ah ah ah
Ah ah ah ah ah

You and me, we never had a fight and any wars
On some foreign soil in the pouring rain
Sharin' some foxhole, or fightin' some enemy,
That we don't know in a place we cannot name,

But God knows, that life is a war,
If you live at all, we're gonna do battle,

No matter what the weapons may be,
No matter which enemy may attack,
Well, it's you my friend, that I would want to watch my back,

You and me, we always had to fight for what we got,
We cried our tears, but we laughed a lot
Livin' out of a suitcase, in and out of a spotlight
We made mistakes, but we gave it our best shot

God knows, that life is a war,
If you live for Him, you might just die in a battle,

No matter what the weapons may be,
No matter which enemy may attack,
Well, it's you my friend, that I would want to watch my back,

Ah ah ah ah ah
Ah ah ah ah ah

You and me, we sure have had a crazy ride,
And I'm glad to say, I've served with you,
With you, my friend, that I would want, to watch my, watch my back,
Not to be confused with washin',
And it's you my friend

Yeah, yeah
It's you my friend,
That I would want to watch my back,
Watch my back,
