

A Snow Globe Christmas

Pink Martini

When you went away
The colors all turned brown
Since you've been away
When you went away
The colors all turned brown
Since you've been away
There's shadow on the town
But when I close my eyes
You are still around
Especially on the days when the snow falls down

Moss covered trees out in the blue
You're missing me, I'm missing you
Sugarplums dance and reindeer too
I'll go to sleep and dream of you

And when the snowflakes all on Douglas Fir
It's like a snowglobe Christmas
And we're living in a perfect world of trees
And harmony
I'm there with you
You're here with me

And when the snowflakes all on Douglas Fir
It's like a snowglobe Christmas
And we're living in a perfect world of trees
And harmony
I'm there with you
You're here with me
Together we will always be
