

# Everywhere

Pink Martini

Everywhere I go I know  
Everywhere I go will glow  
The sleepy summer sky  
The lovers passing by  
All the cities too  
Make me think of you

Everywhere I go I see  
A world designed for you and me  
I always realised with every new sunrise  
That you are with me everywhere

I've never ever known a love that lasted  
Beyond the thrill of a first kiss  
This love of ours has utterly surpassed it  
And now my bliss is this

Every time I'm far from home  
I am never quite alone  
Whenever we're apart  
You're always in my heart  
For you are with me everywhere

Every time I'm far from home  
I am never quite alone  
Whenever we're apart  
You're always in my heart  
For you are with me everywhere
