

No More Reason (to Call Us Alive)

Pink Turns Blue

No more reason
We're going to die
No more reason
To walk the line
No more reason
We're going to hell
No more reason
To say goodbye

No more reason
No more reason

No more reason
To play their games
No more reason
To be their nice guy
No more reason
To be sad
No more reason
To save their world

No more reason
No more reason
No more reason
No more reason
No more

No more reason
To tell the truth
No more reason
To fight your lies
No more reason
To call us alive
No more reason
To call us alive

No more reason
No more reason

No more reason
To call us alive
No more reason
To call us alive
