

Dodging Bullets

Pissing Razors

made it thru the day i didn't kill myself
My gun was loaded I'll point it someone else
I'll pull the trigger cause I'm not really sane
I'm a mortal man gotta stake a claim

Dodging all the bullets I try to make my way
Critics all around me, they can't hear what i say
Look to the heavens to teach our souls the way
gotta save the children and teach them soem respect

Living alone inside my mind, I'm living this life of pain
sometimes in life there's to much frustration
alone i see the flashing lights

Dodging bullets of life...

dodging bullets...

Made it thru the day - I didn't kill myself
My gun was loaded - I'll point at someone else
I thought I'd die today
I won't go out this f**kin way...
