

# You're a Zombie

Plasmatics

Got a TV brain and a pixel head  
You walk and talk but you are dead  
You just came down from the trees  
Now I got you on your knees  
You don't know what's going on  
I can turn you off or turn you on  
Drive your car around the square  
You're moving fast but you go nowhere  
I'm inside your DNA  
You can't make me go away

You're a zombie honey  
We done consumed your brain  
Can you tell the difference  
Or do you feel the same?  
Now you're a fascist robot  
Just like you were before  
We can press your buttons  
And have a robot war

All you do is fuck and eat  
That's what we do too  
Tough for you 'cause you're our meat  
But we don't make the rules  
Not only will we drink your blood  
We're gonna suck your head  
There isn't much to think about  
'Cause soon you will be dead

You're a zombie honey  
We done consumed your brain  
Can you tell the difference  
Or do you feel the same?  
Now you're a fascist robot  
Just like you were before  
We can press your buttons  
And have a robot war

All you do is fuck and eat  
That's what we do too  
Tough for you 'cause you're our meat  
But we don't make the rules  
Not only will we drink your blood  
We're gonna suck your head  
There isn't much to think about  
'Cause soon you will be dead

There isn't much to think about, casue soon you will be dead  
There isn't much to think about, casue soon you will be dead  
There isn't much to think about, casue soon you will be dead
