

A Good Place To Turn Around

Point Of Grace

Devil's highway he's right beside me
Whispering in my ear
He drew the map and set the trap
But I'm the one that got me here
Made a mess of my whole life
Burned every bridge I crossed
Am I too far gone which way is home
How did I get so lost

I'm looking for a good place to turn around
And get off this road that I'm headed down
I've gotta find some peace of mind
Lord, send a sign somehow
I just need a good place to turn around

If You can hear me, I'm on empty
Forgive me of my past
For being hateful to every angel
You put into my path
For mama's tears and wasted years
And getting so off track
I'll do anything, is there any way
That You can take me back

In the dead of night I see a light
Shining up ahead
There's a parking lot, I had to stop
'Cause the little church sign says

Are you looking for a good place to turn around
And get off that road that you're headed down
You can find some peace of mind
What better time than now
Are you looking for a good place to turn around
This feels like a good place to turn around
