

## When It Explodes

Pond

Tell me how long I can float, don't want to sing the song  
That we wrote together so long ago, so long ago

So let me know, so let me know where is it going when it explodes?

I hope that my head is not all straight loving you and I just can't wait  
Till something great something unknown

So let me know, so let me know where is it going when it explodes?

Where is it going, where is it going, where is it going when it explodes?

Oh, where is it going, where is it going when it explodes?

Oh, where is it going, where is it going when it explodes?
