

Mournin' Light

Pop Levi

Baby babe I love the way you comin' home
Baby babe I love the way you wakin' home
Keep on the move now baby
Babe you left me all alone

Baby babe I long for you to steal the night
Baby babe I long for you to steal the night
If you can keep on the groove now baby
Stay until the mournin' light

Honey I know, I know you'll do me harm
Baby babe you rock e to the edge of the farm
If you do babe, if you do babe, if you do
Tell me how you keep so calm

Baby baby don't you try to talk to me
Oh baby don't you try talkin' to me
See me wailing darlin'
Hear me screaming 'let me be!'

Don't ever come back to me babe

Honey I know, I know you'll do me harm
Honey I know, I know, I know you'll do me harm
You lead me on, you do babe
Tell me how you keep so calm

Oh babe I long for you to steal the night
Oh babe I long for you to steal the night
Give it me back babe, give it me back
Stay until the mournin' light
