

Staring at the Sun

Post Malone

Wait

I know you got a lot of shit you like to say
(To say, to say)
Slow it down, think you're getting a little carried away
You're too close to the flame
But you don't wanna turn around
Like you got me figured out
But girl what I can promise is I let you down
So don't put up a fight, you'll get lost in the light

If you keep staring at the Sun, you won't see
What you had become, this could be
Everything you thought it was
Blinded by the thought of us, so
Give me a chance I will fuck up again
I warned you in advance
But you just keep on staring at the Sun

Wait

I know I got a lot of shit going on with me
Now we're free to love anyone then loving me
I tried to rewind and get reminded of the time when I wait for nobody
Can't get to close, no, let it go
'Cause I can count on you to let me down
I won't put up a fight, I got lost in the light

If you keep staring at the Sun, you won't see
What you had become, this could be
Everything you thought it was
Blinded by the thought of us, so
Give me a chance I will fuck up again
I warned you in advance
But you just keep on staring at the Sun

Wait

Got a couple little things I would like to say
Today is not your day
You should've walked away
But you won't listen, you just keep on

Staring at the Sun, you won't see
What you had become, this could be
Everything you thought it was
Blinded by the thought of us, so
Give me a chance I will fuck up again
I warned you in advance
But you just keep on staring at the Sun
