

Nobody's Real

Powerman 5000

Alright, alright.

Scary monsters and super beasts,
The more you dream, the less you sleep.
Life as you know it, has gone away.
Unbound, unwound
Who's here to stay? Alright!

Nobody's real but they're willing to let you know
Nobody's real but they'll feel it tonight (Feel it
tonight)
Nobody's real but they're willing to let you go
Nobody's real but they'll feel it

Nobody's real

Could you predict?
Could you foresee?
Artificial by necessity
Rockets and robots
Can save your life
When you don't care about what's real it's alright, OK

Nobody's real but they're willing to let you know
Nobody's real but they'll feel it tonight (Feel it
tonight)
Nobody's real but they're willing to let you go
Nobody's real but they'll feel it

Alright
Alright

Alright

How do you sleep with the time that's left you?
It's all been done there's no need for the rescue
So let's just get out
I swear there's no doubt
You can't be ready cause there's nothing left to do
OKAY!

Nobody's real but they're willing to let you know
Nobody's real but they'll feel it tonight (Feel it
tonight)
Nobody's real but they're willing to let you go
Nobody's real but they'll feel it (Feel it tonight)
Nobody's real but they're willing to let you know
Nobody's real but they'll feel it tonight (Feel it
tonight)
Nobody's real but they're willing to let you go
Nobody's real but they'll feel it

Nobody's real
