Living Like a Dog

When I'm alone I roll in my limited hold When I'm alone I roll and my limit is gone Well I've been living like its high Do what my heartbeat warns When my wager is high Well I've been high before And you can't stop me on my roll

I was a lonely one, and I'm down on my own Out in the morning sun and I'm down to the bone And I've been living like a dog Do what my hearbeat warns When my wager is high Well I've been high before And you can't stop me on my roll

we did one thing right and we left it alone We did one thing wrong and its often at home And I've been livid, hot and high I've been a lonely one Never waited before But I've been high before And you can't stop me on my roll
