

Hello

Prince

Hello (Hello) Hello (Hello)
Hello (Hello) Hello (Hello)

I tried 2 tell them that I didn't want 2 sing
But I'd gladly write a song instead
They said OK and everything was cool
Till a camera tried 2 get in my bed (Hello)
My bed (Hello) (Hello)

I was sittin' pretty with a beautiful friend ("Oh darling")
When this man tries 2 get in the car
("Hey Prince, come on, give us a smile, eh?")
No introduction, "How've U been?"
Just - "Up yours! Smile, that's right, U're a star!" (Star)

U call 'em bodyguards but I call 'em my friends
I guess I'm used 2 havin' 'em around
And cameras by nature like rewards
That's the trouble I get when I'm Uptown

I'm not afraid 2 die cuz I know there's a better place 2 go
(Don't be afraid cuz there's a better place 2 go)
I eat what I want, whole wheat toast
(U can eat what U want, anything is cool in moderation)
And I'm happy, and that's 4 sure

We're against hungry children, our record stands tall
But there's just as much hunger here at home
We'll do what we can if y'all try 2 understand
A flower that has water will grow
And a child misunderstood will go
Hello!
Hello!
Hello!
(Hello)

Everybody
We're against hungry children, our record stands tall
But there's just as much hunger here at home
We'll do what we can if y'all try 2 understand
A flower that has water will grow
And the child misunderstood will go
Our record stand tall, U know
Give us time and love will show
Hello!
