

# Somewhere Here On Earth

Prince

I know U're out there  
I can feel Ur eyes on me  
Seen that face a 1000 times  
If only in my dreams

I know U really want me  
I can feel Ur hands on me  
I really wanna touch U 2  
In a way I'm much 2 shy 2 speak

And even though  
I'm all alone  
4 what it's worth  
U're somewhere here on Earth

And I like it

I know U're out there  
I can feel U getting closer 2 me  
I'm just wondering what U're waiting 4  
U know I am free

In this digital age, U could just page me  
I know it's a rage, but it just don't engage me  
I like the face to face  
Do you want 2 do this at Urs, or my place?

It's been so long  
Since I been with somebody  
Like a million years  
Now U're here on Earth

U're here, U're here

Somewhere here on Earth  
And I like it, I like it

Listen..

I know U hear me  
Like a whisper in Ur ear  
U don't have to fear me  
U'r everything I hold so dear

I know U already love me  
U're probably just 2 cool 2 say  
Somebody somewhere put U down  
But that's ok, that's ok

Cuz whenever U feel  
It's time 2 heal  
No, no more  
As long as I'm here on Earth
