

Alice

Professor Green

You'll be safe, don't worry where we're going, hold my hand
I'll take you on a journey to Alice's wonderland
You'll be safe, don't worry where we're going, hold my hand
I'll take you on a journey to Alice's wonderland
Ooh

I ain't a stranger to a Melana or Helena, a Heather, a Hannah
Samantha, Savannah, Lou-Ella and Emma, Natasha
Amanda, but never an Alice (Never)
I ain't getting caught up in an madness, I'm a gyalist (Ayy)
I ain't rubbed out, you can't erase me
I don't chase women, they chase me
Before you pulled the rug from under my feet
I was flawless, even in HD
Then I took you for a spin, and you drove me crazy

Lay down, love me, don't you? (Alice)
Want me, want me, don't you? (Alice)
Lay down, love me, don't you? (Alice)
Want me, hate me, don't you? (Alice)

Everybody wants a girl like (Alice)
Everybody needs a girl like (Alice)
She promised me the whole world (Alice)
Now she's got me under a spell
Everybody wants a girl like (Alice)
Everybody needs a girl like (Alice)
She promised me the whole world (Alice)
Now she's got me under a spell

Shiny, shiny diamonds, they all wanna touch my body
Any tighter on a dress, they take 'em too much from me
One sugar bun tastes little to my [?]
Shiny, shiny, shiny, diamonds they're all on my body
Can't breathe, can't speak, baby, now you're on it
Runnin', runnin', runnin', runnin', make sure you ain't violent
Shiny, shiny diamonds, they all wanna touch my body
They wanna touch my body
Fuck you, and fuck your body
What am I talkin' about? I love your body
I want your body all over my body
I'm sorry, even though you're in the wrong
All I want is for us to get along
Get together and get it on
I'm addicted to your love, I'm a fool for you
A fool for love, why did I fall for you?
Hot under the collar, losing my cool for you
Who do you need murdered? I'll make the call
Fuck it, I'll pick up a tool for you

Lay down, love me, don't you? (Alice)
Want me, want me, don't you? (Alice)
Lay down, love me, don't you? (Alice)
Want me, hate me, don't you? (Alice)

Everybody wants a girl like (Alice)
Everybody needs a girl like (Alice)

She promised me the whole world (The whole world, Alice)
Now she's got me under a spell (Alice)
Everybody wants a girl like (Alice)
Everybody needs a girl like (Alice)
She promised me the whole world (The whole world, Alice)
Now she's got me under a spell (Alice)

You'll be safe, don't worry where we're going, hold my hand
I'll take you on a journey to Alice's wonderland
You'll be safe, don't worry where we're going, hold my hand
I'll take you on a journey to Alice's wonderland
Ooh
