Defendant - judge - cell - guardian - key All in one person Feel love And fall into the sky You'll be caught - dive into your soul But you locked yourself again Like every time - in every life Remember yourself I'm just passing by to tell You might be chained Heaven is waiting Time has been given Defendant - all is you Judge - you can be part of all again Cell - guardian - key All in one person But you locked yourself again Like every time - in every life Remember yourself I'm just passing by to tell You might be chained
