

"Somewhere a new babys born/
Could there be somewhere a new day be dawned/
Promoe kicks rhymes with an amazing form/
Despite the hate and scorn and the crazy norm/
I praise the morn, the light at the end of the tunnel/
The fire burning we got songs in a bundle/
From the Wax cabinet the late night sessions/
Workin till the sun beams comin thru to bless us/
Restless souls in the freshest mode/
Dedicated to makin it hot in a place that's cold/
So beautiful at the same time poisonous/
Put drugs in the food cus they wanna poison us/
So I nyam on no meat land on both feet/
Blow kisses to the women of the world you're so sweet/
Grow seeds planted in fertile soil/
Plenty of love and light so the birth aint spoiled/
The birth of a baby girl a brave new world/
The birth of a brand new album that straight will burn/
And make you turn away from the run of the mill in this/
New era of musical possibilities/
From the camp that brought you anthems like let me see/
The whole back catalogue from DVSG/
And heres what people like you had to say about/
The new album that just came out/
"
