

# The Derelict (God Forsaken)

Psyclon Nine

Crowned with deception and holocaust eyes  
Speaking through fear and exalting the light  
Doctrine of blackness becoming as lie  
Carnality as disease is denied

I am the one, the fallen angel, the gun  
I am the end, the derelict forsaken

The light at the end of the tunnel burnt out  
The failure turns heartache in he most devout  
Fascism becomes as democracy  
The fire, the flame it becomes as debris

I am the one, the fallen angel, the gun  
I am the end, the derelict forsaken

God forsaken

(tears into spirals from this mortal coil, the needle as Christ  
begs us all to be loyal)
