

# Never Try

PUP

Every morning I keep sleeping  
Cause in the nightttime, I'm dreaming of  
My childhood schoolyard  
I was breathing  
Air on the street where I grew up

You tell me I should know better  
You're probably right  
It's just a phase  
I'll come back ten years from now  
And nothing will have changed

Cause I know I never try  
Oh oh oh oh oh  
And I wanna know  
If I leave here alive  
Oh oh oh oh oh

Am I too old  
To be camping out  
On my back porch  
In the suburbs  
Where I was born  
You never made me happy

And I know I never try  
Oh oh oh oh oh  
And I wanna know  
If I leave here alive  
Oh oh oh oh oh

And even when I try  
I can't recall  
Faces of, anyone at all  
And I dreamt of you in Montreal  
In places I've never been at all

This isn't what I was hoping for  
Apparently I would dream about you anymore  
When everything you want has come and gone

Then you'll know I never try  
Oh oh oh oh oh  
And I wanna know  
If I leave here alive  
Oh oh oh oh oh
