

# Bigger The Better

Puppetmastaz

Intro

Snuggles:

i be droppin' it by, taking you past the work hive:  
never to stop, never to top -  
better to crop the real life!  
i be hoppin' it by snuggles the bunny has realized:  
the better the pay, the lesser the day:  
better to opt and breath right.  
i be choppin' the lies trying to make your brain right  
breakin' your back just like your dad:  
money ain't equal to sunlight!  
shape of the time, raping your mind,  
making you lie, taking the fine,  
making a dime, taking your lives,  
scrapin' the sky, shipping your rights.

Refrain:

You think the bigger the better,  
but we got time forever!  
We ain't no sheep or shepherds  
but they are blindly fed up.  
Don't think the smaller the lesser,  
the sun is shining clever:  
we are the panther leopards  
bout time to make time forever!

Ducci:

Pump up the volume -  
doin the move,  
It's ducci gonna hide the whole treasure and proof that  
we,  
Comin the bigger the better you listening to,  
And by the way this no old this zooschool -hey,  
Don't this itch like push the switch right,  
Fourty figures is feddin up with mankind,  
This is the one and only truth and it hurts,  
Now it's time to givin out puppet's red alert!

bitchin'psychin'?  
If you can reduce'em to da big Donky Kong pussy is
