No time to fuss, no time to fret No time to think, no time to worry Waiting is for dreamers, give me time to catch my breath Seeing is believing, give me time to take a rest

Cast alone with you
You know I've got to go quite soon
There'll be no time for love to go cold on us

I'm a restless kind of guy There's no turning back now Gotta live before I die There's no turning back now

With every move, with every break Gotta give my best and soon discover Standing on the inside, there's a time to hesitate Looking to the future, you can't leave it to the airs of fate

Visions I have seen (visions I have seen)
My dreams I wanna share with you (share with you)
But my freedom now (is all I ask of you) lord I ask of you

I'm a restless kind of guy
There's no turning back now
Gotta live before I die
There's no turning back now (ooh ooh)

I'm a restless kind of guy
There's no turning back now
Gotta live before I die
There's no turning back now
I'm a restless kind of guy
There's no turning back now (ooh ooh)
Gotta live before I die
There's no turning back now
I'm a restless kind of guy
(no turning no turning no turning back)
I'm turning back

(restless kind of guy)
ooh ooh ooh
