

Hallucinations

R3hab

I can't fight this, got my eyes fixed on you
I've sensed somethin' new
Must be hallucination

In my mind I realize you're not true
Must be somethin' we do
We're just hallucinations

We're just hallucinations
We're just hallucinations
We're just hallucinations

I can't fight this, got my eyes fixed on you
I've sensed somethin' new
Must be hallucination

In my mind I realize you're not true

Must be somethin' we do
We're just hallucinations

We're just hallucinations
We're just hallucinations
We're just hallucinations
We're just hallucinations

Swore I saw you comin' over here
Happiness is just controllin' fear
We're just hallucinations

We're just hallucinations
We're just hallucinations
We're just hallucinations
