

# I Just Can't

R3hab

Do you remember how it felt when we were just so young? (So young)  
Yeah, we'd do anything we wanted and we'd do it for fun (for fun)  
Everything I wanna say, I can hear that so loud (so loud)  
I got a voice in my head and I'mma let it all out

Keep me up all night, I'm not sleeping  
I'm closing my eyes just to keep on dreaming  
'Cause when I see your face my own senses leave me  
Yeah, I could be blind but I'd still see that

I just can't  
I just can't  
'Cause when I see your face my own senses leave me  
Yeah, I could be blind but I'd still see that, I just can't

If there was ever any element of doubt in my mind (my mind)  
A young love still feels like it felt the first time (first time)  
Waited all of my life for this one day (one day)  
But I'd bet a million dollars that you feel the same way

Keep me up all night, I'm not sleeping  
I'm closing my eyes just to keep on dreaming  
'Cause when I see your face my own senses leave me  
Yeah, I could be blind but I'd still see that

I just can't  
I just can't  
'Cause when I see your face my own senses leave me  
Yeah, I could be blind but I'd still see that, I just can't
