

It Would Be Enough

Rachael Sage

It would be enough if you sang like an angel
If you sang like an angel every time oh
It would be enough if you sang like an angel
But you sang like you'd been through hell

It would be enough if you played like a genius
If you played like a genius every night oh
It would be enough if you played like a genius
But you played it like you mean it

How can just one person do so many things well
Ring out with such honesty like a Sistine bell
How can just one person do so many things right
We were lost, we were cold
In the middle of the night you calmed the fight

It would be enough if you lived with compassion
If you lived with compassion every day oh
It would be enough if you lived with compassion
But you loved everyone with passion

How can just one person do so many things well
Ring out with such honesty like a Sistine bell
How can just one person do so many things right
We were lost, we were cold
In the middle of the night you calmed the fight

It would be enough if you wrote us a hit song
If you wrote us a hit song every time oh
It would be enough if you wrote us a hit song
But you wrapped us in your wisdom

It would be enough if you gave us your body
If you gave us your body every night oh
It would be enough if you gave us your body
But you saved us with your soul

How can just one person do so many things right
We were lost, we were cold
In the middle of the night you calmed the fight...goodnight
