

## Didn't I

Rachel Proctor

So hard to know the reasons  
It's hard to know the truth  
When it's all over  
Every time I look back  
I just get more confused  
So I replay every kiss and  
Every clue I might have missed  
Didn't I make you happy?  
Didn't I get inside your heart?  
Didn't I make you love me?  
Didn't I, didn't I now baby  
I turn my world upside down  
I turned myself inside out  
But I still lost you  
Didn't I didn't I  
Why do I keep believing?  
What am I hoping for?  
Why can't I let you go?  
I did all I could do  
Why do I think there's something more?  
I just don't understand  
How love slipped right through our hands  
Didn't I make you happy?  
Didn't I get inside your heart?  
Didn't I make you love me?  
Didn't I, didn't I now baby  
I turn my world upside down  
I turned myself inside out  
But I still lost you  
Didn't I  
Why do I think the fault is mine?  
Was it me at the wrong time?  
Maybe I could move on  
If I knew the reason why  
I turned my world upside down  
I turned myself inside out  
And I still lost you  
Didn't I, didn't I
