

I'm Gonna Get You Back

Rachel Proctor

I'm putting on your favorite dress
You know the one you love that really shows off my legs
Gonna march downtown right into your favorite place
And that little blonde, well she better not get in my way
'Cause I'm on a mission

I'm gonna get you back
It won't take long, it'll happen fast
You might as well just face the fact
I'm gonna get you back

It's kinda crowded in here tonight
You've got yourself surrounded by every pretty girl in sight
But that ain't gonna stop me my time is comin' around
You'll wonder what just hit you when it all goes down
I can't wait to see your face

I'm gonna get you back
It won't take long, it'll happen fast
You might as well just face the fact
I'm gonna get you back

Over at the bar, hey there's your best friend
Think I'll just sneak over and ask him how he's been
I'm thinkin' well he's always liked me anyway

I'm gonna get you back
It won't take long, it'll happen fast
You might as well just face the fact
I'm gonna get you back
I'm gonna get you back
Yeah, gonna get you back
