

Come and Go

Radiation City

Where do you come from where do you go?
How could you be here when you're down in a hole?
Wake up the night is dark, but you're a bright kid

Where do you come from where do you go?
This isn't the bedroom so take off your clothes

Take up a new pastime it's well past the time you did

Where do you come and go?
When you know
When you know

Where do you come from where do you go?
Let's play it like we've never met before
There's a darkness that's been there since you were young
Let's cut it open with a golden tongue

What does it taste like how does it sound?
How could it disappoint if you keeping coming around?

Where do you come and go?
When you know
When you know

Break it down now

Where do you come and go?
When you know
When you know
