

All These Times

Radical Something

You got me thinkin' bout all these times
Got me thinkin' bout all these times
You got me thinkin' bout all these times
And so we sing it again
You got me thinkin' bout all these times
Got me thinkin' bout all these times
You got me thinkin' bout all these times
And so we sing it again

Step outside into my paradise
Feel the music let the spirits hit you nice
Screaming out "Come rage with us,
Put your shades on and embrace the sun!"
Yeah

Lately I've been sleepin' in
Fresh air creepin' in
Had a late evening
And now I know what the reason is

You got me thinkin' bout all these times
Got me thinkin' bout all these times
You got me thinkin' bout all these times
And so we sing it again
You got me thinkin' bout all these times
Got me thinkin' bout all these times
You got me thinkin' bout all these times
And so we sing it again

Yo it's so damn crazy
When the news these days be
All about he hell we're raising
And girls like Carly sayin' "Call me maybe"
These ladies got me so used to misbehaving
All the planes that were leavin' in
Can't succeed? you better think again
The secrets I've been keepin' in
It's so bright outside I forgot what the season is, so

Lately I've been sleepin' in
Fresh air creepin' in
Had a late evening
And now I know what the reason is

You got me thinkin' bout all these times
Got me thinkin' bout all these times
You got me thinkin' bout all these times
And so we sing it again
You got me thinkin' bout all these times
Got me thinkin' bout all these times
You got me thinkin' bout all these times
And so we sing it again

See this West Coast weather is gonna make it all better
See this West Coast weather is gonna make it all better

You got me thinkin' bout all these times

Got me thinkin' bout all these times
You got me thinkin' bout all these times
And so we sing it again
You got me thinkin' bout all these times
Got me thinkin' bout all these times
You got me thinkin' bout all these times
And so we sing it again

So we'll sing it again, yeah
So we'll sing it again, yeah
