

# Waterfalls

## Radical Something

I can fight it off  
I can fight it off  
All this energy coming my way  
It's dripping off  
Sweatin' waterfalls  
Just tryin' to make it through somehow some way  
Just let the beat breathe,  
Let the beat breathe

Educate set us straight  
Hope that our fear doesn't escalate  
With the macro to micro, micro to macro  
Where did my life go, where did my laugh go  
22 years, and I'm locked in this battle  
Fueled by the cheers and my peers that react well  
Moons have passed, days have gone  
It all started with the words of my songs  
Up all night, no chance to dream  
New kid life, so glad I'm past those things  
Hard work never likes a partner  
My money doesn't grow on the trees I'm not a god damn gardener

I can fight it off  
I can fight it off  
All this energy coming my way  
It's dripping off  
Sweatin' waterfalls  
Just tryin' to make it through somehow some way  
Just let the beat breathe,  
Let the beat breathe

Made it through paid some dues  
Nothing but our age to lose  
So we break the rules  
Never let the hate infuse  
Only gunna state the truth so it's familiar  
Sun-rock the concept  
Bet you love our vibe  
And you haven't even heard a song yet  
Keep rocking I gotta keep talking  
I'm locked in, and tossed out my options  
Power, money, respect, they all they collect  
In a forest of evil that I'll never get lost in  
From the west to Boston  
Every single city that we've got to stop in  
If your there feeling blue and your days all rotten  
Well we are too, but we got this

I can fight it off  
I can fight it off  
All this energy coming my way  
It's dripping off  
Sweatin' waterfalls  
Just tryin' to make it through somehow some way  
Just let the beat breathe,  
Let the beat breathe
