

## Saviour of the Dead

Rage

Demons gather in my head  
Take me away, lead me astray  
Make me suffer in my bed  
Leave me no choice, infernal voice

Drag me into black  
Tell me god is dead

Take me away to the end of my life  
Saviour of the dead  
Take me away, I am starving for light  
Saviour of the dead  
Now release me into death  
Saviour of the dead

I have always praised my god  
Followed the priest, prayed for release  
Now they cannot save my soul  
I am to blame, eternal shame

I am spitting blood  
Lay my curse on god  
Wasted 'till I'm mad  
Driven into death

Take me away to the end of my life  
Saviour of the dead  
Take me away, I am starving for light  
Saviour of the dead  
Now release me into death  
Saviour of the dead
