

Kissed by the Sun

Raheem DeV Vaughn

Oh, my-my-my
Oh, my-my-my-my
Oh, my-my-my-my-my-my-my
(Kissed)

Mahogany glasses, my queen
An ebony goddess, you look like
Like you fell out of heaven
Like you fell out of heaven
Twinkle, twinkle like a star, you shine
That face, my God
That wave, oh my God
Baby [?]

Kissed by the sun (kissed)
Girl your body, girl your body (kissed)
Kissed by the sun
Girl your body, girl your body
Is kissed by the sun

You're a ten on the Richter scale
[?]
Sweet like honey when I kiss you
Taste like cocoa in the center
Aphrodisiac (ooh)
Afro-centric, exquisite
One night I'm in your trance
Let's leave and make some plans
Ooh, you sexy little [?] (ooh)
Please don't wake me up from dreaming
Just let me marvel over you

Kissed by the sun (kissed by the sun)
Girl your body, girl your body (kissed)
Kissed by the sun
Girl your body, girl your body
Is kissed by the sun

You're priceless, in 14-carat gold
You shine bright

Girl you shine like [?]
You shine like a diamond girl
You are the dancehall centerfold
When I look at your ebony
Baby that's what I see

All I hear, a harmony
(So beautiful, so beautiful)
Every inch of your body
(Your body) oh girl

Is kissed by the sun, ooh
Girl your body, girl your body (kissed)
Is kissed by the sun (you're kissed by the sun)
Girl your body, girl your body
Is kissed by the sun

(Every strand of your hair is kissed by the sun
From your face to your waist, kissed by the sun)
Kissed, it's kissed by the sun
(The melody of your skin, your skin
All of you baby)

Is kissed by the sun (ooh)
Kissed by the sun
All of you baby
Is kissed by the sun (ooh)
Kissed by the sun
All of you baby
Is kissed by the sun (ooh)
Kissed by the sun
All of you baby
Is kissed by the sun (ooh)
Kissed by the sun
All of you baby
Is kissed by the sun
Kissed by the sun
All of you baby
(Ooh)
(Ooh)
