

# Dead Bodies

Rancid

Disfigured and oblique  
From the appetite that I seek  
I'm a hungry cannibal  
I'm a rabid animal  
My remains are being scattered  
I've been bludgeoned, I'm in pain  
Stomach pains are coming  
And they strike with demon speed

Dead bodies everywhere  
Piles of blood, entrails and hair  
I'm bleeding from the inside  
From the armageddon outside

Reaccuring rotting dreams  
From this place the demons speak  
My skin exfoliates  
My patience terminates  
Unfold to unholy urges  
Unearthed with urgency  
The holocaust was nothing  
Compared to my lividity

Dead bodies everywhere  
Piles of blood, entrails and hair  
I'm bleeding from the inside  
From the armageddon outside

In this oblong box that's eating you  
There's nothing you can do

Dead bodies everywhere  
Piles of blood, entrails and hair  
I'm bleeding from the inside  
From the armageddon outside

Dead Bodies!  
Dead Bodies!  
Dead Bodies!
