

## Hero

## Random Eyes

Here we go  
Fighting against the flesh  
Evil is whispering in my head  
For loathesome things to do

I don't know these people here  
I'm alone in my world  
I'm missing home to my dears  
Who can take away my fears?

You, you are the hero in my eyes  
My child I love you  
I help you through this darkness  
I live in your heart  
You are the hero in my eyes  
I'll protect you  
Don't be afraid I guide you  
I lead you through the night

Is that okay when you see  
a poor child is suffering in the pain  
Is it right when a man meets death  
with poison in his veins

Help yourself now while you can  
Time is fading away  
Turn around, can you see this Man  
He has another plan for you
