

# In My Life

Randy Crawford

In my life what in the world am I gonna do?  
How can this meaning and purpose too  
Be ours to share, if you're not there?

In my life, time could be running out for me  
Could be saying what is left for me  
To make better, to make right

In my life, I always knew love was the answer  
It's been applied before, never left unnoticed  
Thought by now, it's been more than apparent  
What then would you say do we, do we give more?

Couldn't be saying, "Stay out of my life"  
I won't be accepting one wrong for two  
Fell head over heels in deep devotion  
And that must count for something too

In my life, what in the world am I gonna do?  
How can this meaning and purpose too  
Be ours to share, if you are not there?

Could I have been so unkind  
To have stumbled into the arms of another  
Without being pushed there?

In my life, I always knew love was the answer  
It's been applied before, never left unnoticed  
I thought by now, it's been more than apparent  
What then would you say do we, do we give more?

I couldn't be saying, "Stay out of my life"  
I won't be accepting one wrong for two  
Well, I fell, fell head over heels in deep devotion  
And that must count for something too

In my life, I always knew love was the answer  
It's been applied before, never left unnoticed  
Thought by now, it's been more than apparent  
What then would you say is the answer, do we give more?

I couldn't be saying, "Stay out of my life"  
Won't be accepting one wrong for two  
Well, I fell, fell head over heels in deep devotion  
And that must count for something too

Oh, I wouldn't be saying, "Stay out of my life"  
Won't be accepting one wrong for two  
Well, I fell, fell head over heels in deep devotion  
And that must count for something too

Oh, I wouldn't be saying, "Stay out of my life"  
Won't be accepting one wrong for two  
Yes, I did, I fell, fell head over heels in deep devotion  
And that must count for something too
