

Only Your Love Song Lasts

Randy Crawford

Loveliness your song inside of me
Through life's shadows I feel your melody
Life touching life with [?] poetry
Your verse of gentleness setting my heart free
And only your love song lasts

A tender hand to brush away my tears
Your love around me to silence all my fears
Each moment rings with just the sound of you
Of all the loves I've lived, only yours came through
And only your love song lasts, only your love song lasts

What would be the nights be like without your hand in mine?
What would this feeling be without you to make it right?
With eyes so like the ocean's mystery
You whisper forever your love song to me
And only your love song lasts, only your love song lasts
