

This Man

Randy Crawford

He's breaking my heart and I let him in
'Cause I know there is no forgetting him
And makes me cry, Lord, I've been crying
But I know that will be know denying

This man - he cheats on me
And he knows I know
But he knows that I can't let him go
I'm so weak, he's so strong
And no way I can get along without

This man - really touch it means that starts the fire
When he kisses me the flame starts burning higher
I've got to give it more than love I can
Cause he loves me right, he's a love in kind of man

And needing soul and the fooling me
Will make me stay till you get start of me
I don't mind this way you're living
I wanna spend my whole life giving to this man

Really touch it means that starts the fire
When he kisses me the flame starts burning higher, higher
I've got to give it more than love I can
Cause he loves me right, he's love in kind of man

And needing soul
It doesn't matter what it does
This man
Oh ho... this man
He makes me cry
And any makes me smile
This man
Ooh... this man
He makes me cry
