

# When I Get Over You

Randy Crawford

Everybody sees some changes  
Everybody sheds a skin or two  
You won't recognize me  
When i get over you

Unattended dreams will breathe life  
All my wishes will come true  
And there'll be time for everything  
When I get over you

When I get over you  
The sky will still be blue  
And I'll swim there if I want to  
When I get over you

I'm setting free the monkey  
I'm setting free the lions too  
Yesterday's child will grow up wild  
When i get over you

When i get over you  
The sky will still be blue  
And I'll swim there if I want to  
When I get over you

I'll be wearing a fairy-tale  
I'll walk in glass high-heeled shoes  
And there'll be a moral to the story  
When i get over you

I'll be the life of the party  
I'll misbehave and act the fool  
I won't care who knows me  
When i get over you

When i get over you  
The sky will still be blue  
And i'll swim there if i want to  
When i get over you

When i get over you  
Yeah  
The skies will still be blue  
I said i'll swim there if i want to  
When i get over you...
