

Daddy, daddy, where is my daddy, daddy  
You'll be my (ohh) daddy

I been working hard allday  
Wanna come home to some play - play  
And you rubbing it the right way  
Can you beat it up then eat it up like a falet  
Go all night till the next day  
Can we start with a little bit of four play?  
But this time I'm a keep my heels on  
I got so many tricks & I know I can predict  
All the spots that you wanna put your lips on  
(Ohh) daddy don't slow down  
Tonight we gone go all twelve rounds  
Got walls up, can you tear them down  
Make that thing talk back right now  
(Ohh) like lalala  
Bang so good, got a nigga seeing stars  
Bang so good, he then bought a bitch a car  
Cause I melt in your mouth like a conduct bar  
I call you d-a-d-d-y when you up in the g-u-t-t's  
Cause I that g-o-double d make you wanna w-I-f-e me  
And it's tight upon entry, nickname her kitty cat of the century  
No hoe chick, wanna hit it in my tee-pee  
Gotta tripod let's do the hd dvd

You give it to me good, can you do it better  
You can make it wet, can you make it wetter  
Come & put that thing down on me  
(2x)

Come on, call me ms. juicy  
Pop that willy on your suzuki  
While ya ex girl was searving you sushi  
My 5 star cooch, laced in gucci  
You been my groupie, tell them how you do anything for the booty  
My sex game so groovy, keep a long hold like jury duty  
There's alot of things that I'm into  
We can use toys, we can use utensils  
Like a spatchula, toss it up, flip it up  
Then I back it up like a uhaul truck  
I then been wet, can you get it wetter  
You do the damn thing but can you do it better  
Must work over time when your up in mine  
Grab me by the waistline, make it come double time  
Four, I got that crack crack  
Hit it on time, & you'll come back back  
Now I got him like, " damn girl, gone do that thing with no hands girl"  
If I could I would sell it in a jar  
I'll be a billionaire chick, oh my lord  
Stupid juice box call it retard  
His last request was I'm a die hard

You give it to me good, can you do it better  
You can make it wet, can you make it wetter  
Come & put that thing down on me
