

Bastards

Rawside

USA striking back, Vietnam died by napalm attack
in the middle east they fight for oil
burning corpse lies on the soil

Bastards

Bastards-bastards-the war begins
money wins
the oppressing way
USA

USA marches in our land
they come here, misery is the end
the result when they go home
overkill by nuclear storm

They kill our wives, they kill our land,
they kill our kids, this must have an end
We say USA go home from our land
We say, USA we'll fight, make a stand
We say, USA resistance you'll see
We say, USA we wanna be free
