

## Nuclear age

Rawside

Bombs, explosions shock the ground  
destruction, shock-waves all around  
just few people have survived  
the massacre of the last night

That's the year, I was born  
a mutant guy out of all norms  
no eyes in my head, no arm, no leg  
Two heads on my neck, my skull has a crack

The massacre is what we got  
But what you gave, you'll get it back

Our generation now has the power  
former society, that's your last hour  
what's human is abnorm, all pervert is right  
now it's our time, experience our fight

That was the year, our movement was born  
mutant guys out of all norms  
no eyes in our head, no arms, no legs  
two heads on our necks, our skulls have a crack
