

Outlaw

Rawside

Ten years ago, we chose the way
what we believe, the games we play
came out of school, we had no job

the first money, will open some door
the next deal, we want much more
More girls, more drugs, more rock'n roll

comes the day, lost mind and heart
no way back, for legal start
that is real life, I go my way

Tattooed skin, the letters show
fuck you all, punks not dead
no future, no hope, FUCK NO WAY OUT!

Stop the next morning
Stop now, today
and where we go
Don't stop this way

Stop mistakes warning
Stop time to pay
and where I go
I don't stop my fucking way

All these years,
we were walking down the streets
for our causes, for our truth
what we believe
