

Tears of yesterday

Rawside

Bombers flying through the sky
Peace is just another lie
Superman where are you now
Who should help us, I don't know

Mankind lived with lies
For over thousand years
For us, it's all O.K.
So why should we change this

Don't forget the tears of yesterday!
Don't forget the lies!
We build up a new today
But tomorrow we will die

Bombs are falling from the sky
Their peace is just another lie
No place, where I'd like to be
Nightmare became reality

Don't forget the tears of yesterday!
Don't forget the lies!
We build up a new today
But tomorrow we will die
