

No Time To Waste Time

Ray Charles

What do you do - when time comes on
When your body won't do - what your mind wants done
What do you say - when you feel no more
You'll 've had your day - you've been on the floor
So don't you cry or plead with me
Cause a fire inside is feedin' me

I got no time
To waste time
Cause the time will come when time ain't on our side
I got no time
To waste time
So don't waste my time by trying to run and hide

All these years - I've been going strong
Though joy and tears - through right and wrong
The seconds tick - and the minutes tock
You can fool a mind that's sick, but you can't beat the clock!
That's what life is all about
You go round once, let's make it count!

I got no time
To waste time
Cause the time will come when time ain't on our side
I got no time
To waste time
So don't waste my time by trying to run and hide

When you come to the end of that rocky road
All the sins of life should be forgiven
Well I've done my best - by my personal code
But I've made damn sure I've done myself!
So don't deny the need in me
Cause the fire inside's still feedin' me

I got no time
To waste time
Cause the time will come when time ain't on our side
I got no time
To waste time
So don't waste my time by trying to run and hide
