

# Tell Me What You Want Me To Do

Ray Charles

I spent my first night alone without you, baby  
And I was wondering if you were doing the same  
I tried the TV, the CD and the radio  
Nothing would ease my pain  
So, baby...  
I want you to tell me what you want me to do  
Alright!

I couldn't sleep at all last night  
Thinking of you, baby  
Tears got my pillow soaking wet  
Thinking of all the things I tried to do for you  
And now, this is what I get!  
Tell me, baby  
Oh, what you want me to do girl?  
Yeah...

Oh, baby!  
Well, tell me what you want me to do for you  
Oh, baby girl!  
I need to know right now  
And I'm gonna play a little bit for you, baby  
Listen...  
(Lord have mercy)

I got to tell myself  
It's a shame...it's a shame...  
All the changes you put me through  
I even called the good Lord this morning for some advice  
And he told me to talk to you  
So, tell me baby  
Tell me what you want me to do?  
Huh?

Oh, baby!  
Ah, I need to know from you  
C'mon  
Oh, baby!  
Now...  
Well - I feel, I feel like it  
Why don't you talk to me, baby?  
Tell me what you want me to do?  
Ah, Lord  
I want you to know...whoo!  
I'm begging you baby...now  
Oh! Little, little girl  
Don't you hear me crying, baby?

Will want you so much little darling  
I'm going on home to my mama  
Where I can get a little sympathy for myself  
She...she will understand  
Oh, baby!  
I know you got this number girl  
Why don't you call me up sometime?  
Babe, if you wanna  
Huh?

Play it
