

The Fever

Ray Charles

Steamy nights were alight
Your body next to mine
Hold me tight, touch me right
Drag me across the line

And as you love me, shout it out
Take me higher

Who, who, who can make you tremble
Like lovers do
Who, who, who got the Fever
Like me and you
Who, who, who knows how to touch you
The way I do
Me, you
We got the Fever

Running hot, drive me wild
Losin' all control
Blinding light, hold me tight
And never let me go, baby

Who, who, who can make you tremble
Like lovers do
Who, who, who got the Fever
Like me and you
Who, who, who knows how to touch you
The way I do
Me, you
We got the Fever
